# BUSINESS AND STOCKS.

## CANNOT MARKET ORE PROFITABLY

South Columbus Con, Levies Assess ment to Prospect for Richer Orc.

In explanation of the action of the directors of the South Columbus Consolidated in levying a 5 cent assessment, Manager Tony Jacobson says it

ment, Manager Tony Jacobson says it is due to the conviction that the search for bodies of high grade ore must be continued. In prosecuting this work the present ore bodies in the mine cannot be drawn upon to meet the cost of such work as the grade is too low hence the only thing to do is to call upon the stockholders.

Mr. Jacobson says the company has a good body of carbonate ore in the old Quincy tunnel, the value of which is around \$18 per ton. Owing to the silicous nature of this ore, the best treatment charge the company is able to get at present is \$10.35. When this is added to freight and sampling charges of \$4.50 per ton, nothing is left for the company. For this reason no attempt will be made to handle the ore until better smelting rates can be obtained, which the management hopes to be able to do when there is more smelter competition.

The company has also some coppersilver ore with an iron excess which nets \$18 per ton, but in order to mine this ore it is necessary to handle a lot of lower grade cre, which cannot be marketed at profit. The present assessment will enable the company to pay off its indebtedness, and leave a good balance in the treasury for development purposes.

ment purposes.

MARKET WAS STEADY TODAY.

Sales for Week Aggregate Four Hundred Forty Thousand Dollars.

With the sale of 51,850 shares this morning for the sum of \$42,271.25, the total business for the week reached the large sum of \$439,716.32, which is not considered a bad showing considering for this season of the year, and the fact that the market is weak. The total shares sold during the week were 554,-250.

Prices were not materially changed from yesterday. Grand Central sold at \$2.80, and Iron Blossom hung around \$1.32½. Silver King Coalition dropped 100 at \$3.95, and Sloux Con. released 3.300 shares at \$1.10. Mason Valley was active at \$212½, while Tintic Central was stationary at 12, at which price 2.000 shares were sold. Following are the closing quotations:

Tintic Standard Completes Vertical Shaft to 400 and Will Go Deeper. George F. Busch, a director of the Tintle Standard Mining company, reports the new vertical shaft completed to connect with the bottom of the old incline shaft at the 400 level. This work was consummated today, and its completion gives the company 375 feet vertical depth. The new shaft is single companyment. The new shaft is single compartment bered the whole depth. bered the whole depth. The company has also practically installed, Mr. Busch says, a 60-horse power engine and two 250-horse power boilers. With this equipment the company proposes to push the shaft to the 600 level, where a station will be cut, and crosscutting will begin for the vein. Some patches of ore have been found on the 400 level. and the management is very hopeful of finding a mine at greater depth,

HANNIBAL CON. MINING CO. Articles of incorporation of the Hannibal Consolidated Mining company of Provo, Utah, were this morning filed in the office of the secretary of state. The company is capitalized at \$100,000, divided into 1,000,000 shares of the value of 10 cents each. John Bestelmeyer is named as president, John M. Bestel-meyer vice president, and H. C. Hicks is secretary and treasurer of the new corporation, while these officers, with Catherine Bestelmeyer and Henry G. Blumenthal constitute the directorate. The company takes over at the full valuation of the capital stock the Hannibal, Water Gulch, Hannibal No. 2 and No. 2 Fraction claims in the Tintle mining district. Two hundred and fit-

ty thousand shares of the stock have been placed in the treasury for development purposes.

## **JACKLING BACK** FROM THE RAY CON

Will Break Ground for 5,000-Ton Mill Next Month-Ore Bodies Great.

General Manager D. C. Jackling of the Utah Copper company returned this morning from his visit to the Ray Consolidated Copper mine in Arizona, which is about to be equipped with a 5,000-ton mill to handle the immense deposits of low grade copper ore now blocked out at that wonderful mine. The steel for the mill was ordered in bulk two months ago, but the management is now arranging the detail work which will govern the steel company in building the steel frame for the huge mill. This done, the work of getting out the steel work will go forward as rapidly as possible. In the maintime the company is making preparations to break gound for the mill about the middle of September.

The company has also graded about two miles of the six miles of railroad which will be built from Ray to Kelvin, the station on the Phoenix and Eastern line, and is pushing the rest of the

ern line, and is pushing the rest of the work as fast as possible.

Now that the management knows exactly how to treat the ores of the mine, the experimental plant which has been in operation for the last 10 months is no longer needed, consequently Mr. Jackling says, it has been closed down. Speaking about the mine today, Mr. Jackling said in answer to questions that the tonnage in the mine reaches all of the almost fabulous amount of 50,000,000 tons, the average value of which is about 234 per cent copper. With such a low grade of ore it would With such a low grade of ore it would seem that the margin must be small. But through modern science, which means years of patient research, it has been demonstrated that given the right kind of treatment such ores can be made to pay handsomely. This, however, is overcome by the big tonnage, which makes the aggregate results most striking, with this advantage that the immense tonnage makes the mine long lived.

Mr. Jackling expects to go to Seattle next week to visit the fair.

SIERRA COMPANY ORGANIZED.

Provo Aug. 14.—Articles of incorporation of the Sierra Mining company have been filed with the county clerk. Provo City is the principal place of business. The capital stock is \$10,000 divided into share of the par value of one cent each, based on the valuation of certain leases and bond on the Sierra Mining claim in American Fork canyon. The directors and erican Fork canyon. The directors and erican Fork canyon. The directors and officers are: Robert Anderson, president; H. G. Blumenthal, vice-president; F. E. Brown, secretary and treasurer D. D. Houtz, J. E. Hosmer and Alonzo Billings.

W. F. Snyder and A. D. Thompson, of Duluth will leave tomorrow for the east. Mr. Thompson is a prominent stockholder of the Cliff Mining company, whose properties are located at Ophir.

It is reported that the rich body of silver gold ore found on the 200 foot level of the Florence lease on the pro-perty of the Seven Troughs Mining company, has also been exposed on the 300 level.

Connection has now been made between the Daly West shaft and the Ontario tunnel level, work on which has been under way for several months. The company is crosscutting for the ore bodies on the 1,700 and 2,100 levels. A new shaft will shortly be sunk at the Hub property in the Star district, Beaver county. It is the intention to sink to the 200 level before crosscutting and eventually the shaft will be put down to deeper levels in order to explore ore bodies that have been exposed near the surface. posed near the surface.

#### **BUSINESS AND REALTY**

Since Thursday morning real estate dealers of the southeast bench have been unusually active. Before that time the week was quiet most of the offices being closed. Among the dealers who reported exceptional week end business was A. N. Humpheles, owner of who reported exceptional week end business was A. N. Humphries, owner of Idlewild and Sunnyside additions. He reported that during Thursday, Friday and today he had two automobiles busy carrying Grand Army people and their friends to the aditions. As a result there were over 30 lots sold in the three days. Among the purchasers were O. D. Olmstead, assistant president, and N. S. Williams, a director and heavy stockholder in the Postal Insurance Corporation of Denver. They were here for the encampment and were so impressed with the southeast bench ground that they bought five lots apiece ground that they bought five lots apiece M. Summerhill of Buffalo, N. Y., an officer of the New York department. He bought three lots, Many other deals were closed and more will be finished

the first of next week. HOOPER-ELDREDGE BLOCK. The transaction by which the sale of the Hooper-Eldredge block on the east side of Main street, between South Temple and First South street changes hands was consummated this morning by the filing in the office of the counby the hing in the office of the country recorder of quit-claim deeds from Mary Hooper to the various purchasers of the property. The total consideration at which the property is transferred is \$210,000, divided as follows: Edward L Sheets, who secures the greater part of the building, \$110,000; Wm. R. Wallace and John F Bennett, \$41,500; Ashton Jenkins, \$58,500.

# STOCK PRICES HIGHEST OF YEAR

To a Level Almost Up to The Best Record.

New York, Aug. 14.—The week's speculation carried prices of stocks to the a few points of the highest average on record. Some hesitation and suspicion was manifested by the professional ele-

record. Some hesitation and suspicion was manifested by the professional element from time to time through fear that the culmination of the movement was at hand. The hardening of the money market in response to the interior demand for crop moving purposes, added to the cautious spirit of the speculation. Professional attempts to bring about a reaction met with successive defeats. The government crop report on grain, the copper producers' report for July, brilliant steel trade prospects and rumors of important financial developments in particular railroads, helped the advance in prices.

Fractional changes either way were general at the opening of the stock exchange today with losses predominating. The opening in Union Pacific was awaited with interest but comparatively little stock was dealt in at the start, and it showed a loss of ¼. The preferred, however, yielded a point. Fluctuations elsewhere were mostly unimportant. The opening recession in prices uncovered large buying orders and when these made their appearance room traders rushed to buy, which sont up prices vigorously in all directions. The Union Pacific stocks continued, the principal features, the common rising from 213¼ to 215¾ and the preferred more than making up its initial loss. Elsewhere advances ranging from 1 to 1½ were quite numerous. St. Paul preferred jumped 5 points. A late extensive realizing movement in the Union Pacific stocks drove the preferred back 2½ and the common and New York Central sagged a point. The rest of the list was not much affected by those declines and at 11 o'clock was ruling at the best.

The market closed irregular. There was a further material advance in Union Pacific to 218½, which showed an overnight rise of 4¾. The preferred stock moved less narrowly but hovered around yesterday's closing. Both Southern Pacific and United States Steel touched their recent high prices and there was an great of the list, Business was on an enormous scale and there was on an enormous scale and there was one profession of the earli

PRODUCE.

CHICAGO.

Chicago, Aug. 14.—Sentiment in the wheat pit during the early trading today was quite builtsh owing to showers throughout Minnesota and North Dakota and to an advance of % to 1 pence at Liverpool. An improved demand for the cash grain also had a strengthening influence. Opening prices were ½½½ to 9½ and December at 9½%. For a time the price of both options held within the opening range.

Although the Northern section of the corn belt had been visited by rains during the last 24 hours, numerous complaints were received today from other districts telling of the continuance of druth. These advices caused considerable firmness in the corn market during the early part of the day. September opened is to ½ higher at 5½ to 6½ and advanced to 65%.

Oats were strong at the start because of active buying by shorts and cash interests. September opened a shade to ¼ higher at 37¾ to 38½ @ ½ and sold within the opening range early in the session.

Provisions were quiet and steady. Lo-CHICAGO.

in the opening range early in the session.

Provisions were quiet and steady. Local packers were moderate bidders for the near futures and shorts bought the January products.

# MINING CONGRESS

Week's Speculation Carried Them | Governor Spry is Asked to Appoint Ten Delegates From Utah.

#### OTHERS MAY ALSO BE NAMED

Notice of Convening of First National Conservation Congress at Scattle Also Received .

Governor Spry has received the official call for the Twelfth session of the American Mining congress, which will convene at Goldfield, Nev., from Sept. 27 to Oct. 2. In the call the governor is empowered to appoint 10 delegates at large from the state, and the mayors of cities are authorized to name two delegates from each city, with an additional delegate for each 25,000 population. The board of county commissioners may appoint two delegates, each mining bureau and exchange two, and two delegates from each mining organization, scientific society, engineering society and state mining school are authorized. Up to date no appointments havea been made but it is expected a full representa-tion will be sent to the mining con-gress from this state.

CONSERVATION CONGRESS. The governor has also received of-The governor has also received official notice of the convening at Seattle on August 26-28 of the First National Conservation Congress of America, with the request that he appoint three delegates to attend the convention from this state. The official communication, which is signed by R. W. Douglas, secretary, says that delegates have been named and are already on their way from Alaska, and Hawail, and requests especially that Utah be represented during its that Utah be represented during its

#### BADGES PRESENTED TO SALT LAKE OFFICERS

Three G. A. R. veterans, W. S. Passler, John Alves and William Goodsell, all of Salt Lake, and who have been acting as special policemen during the week under the appointment of Chief of

Police S. M. Barlow, walked into the chief's private office at noon today, and throwing down the clubs and badges they had been provided with, told in

they had been provided with, told in an outspoken manner just what they thought of the chief.

Then they insisted that Lieuts. Hem-pel and Shannon and Chief of Detec-tives Sheets be brought into the room, too, and listen to what they had to say.

When the veterans got through, the officers were standing considerably em-barrassed, and schuffling their feet, but barrassed, and schulling their leet, but at the same time casting their eyes to the lapel of their coats where a G. A. R. badge of official design and made from the metal of guns captured by the Union army during the war, had been

pinned. The badges are handsome in both their design and bronzed color, and were given to the chiefs of the department in appreciation of the care taken, and work done, on behalf of the visiting veterans.

#### NO CONFETTI THROWING.

The chief of police has just issued an order to the effect that any one caught throwing confetti, sachet powder or such like, or indulging in any kind of rowdyism, during the parade or festivities tonight, will be promptly arrested and jailed. This is all the notice that will be given on the sub-

BUTTE "DIP" ARRESTED.

T. H. Patten Caught While Sending Ball Money to "Pal" in Trouble.

While endeavoring to give assistance a "pat" by furnishing bail money for his release from jail, T. H. Patten was arrested this afternoon by Detectives Ripley and Curran, on a telegraphic warrant from Butte.

According to the advice to the local department Patten is wanted in Butte for robbery, and is said to be a clever "dip" and pickpocket. His confederates, named Clayton and Wilson, were caught in Butte, and the whereabouts of Patten learned by his telegraphing yesterday \$100 to Clayton. Clayton received the hundred, which wsa, not sufficient and wired Patten to send an additional \$50. The interchange of telegrams was known to the Butte police, who informed the local department, and the officers laid in wait for Patten at the telegraph office during the forenoon. He called at the office shortly after noon, inquiring for a telegram, and was placed under arrest. for his release from jail, T. H. Patten

#### WOMEN APPEAR MONDAY.

Mrs. Lucille Scott, Jessie Ryan and Edith Graham, all former employes of the People's Cash store, and who are the People's Cash store, and who are charged with being implicated in the recent robbery of the store, will be arraigned before Judge Bowman Monday morning. Mrs. Scett, who was arrested in Denver where she had gone when her thefts were discovered, is charged with grand larceny, and the other two women with petit larceny.
